ANNUAL REPORT

OF THE

Board of Education

OF THE

TOWN OF SEABROOK.

We were obliged to delay the opening of our school as early in the spring as we wished on account of illness in a portion of the town, they were all in good order however the last week in April, with good attendance.

We have had thirty-two weeks of school and think good work has been accomplished by a greater part of the children, believing that "what is worth doing at all is worth doing well" we aim to have them go over their work thoroughly and understandingly.

It was thought advisable to dispense with the Gove school, consequently an arrangement was made with the board of education in the towns of South Hampton and Hampton Falls to take the children composing that school into their schools for fifty-two dollars, we find it less expensive than running a school purposely for them in that district and think the children will do better when there are others to make it interesting and attractive.

We made a change of readers early in the winter term giving our old books for Raub's Normal series and find them much more interesting and better every way than ours.

A few of Ranbs grammars were purchased for each school to use with ours and the teachers find them a great help, enabling them to do more and better work with each class.

For a long time we have felt the need of a smaller grade of history for children not advanced enough for the grade we were using and after introducing Montgomery's edition for our more advanced classes we find he published a smaller edition which just suited our need therefore we adopted his series for our use entirely, giving up Scudder's which we had been using for several years. The Smithtown school especially needed this book and the pupils have done excellent work, we feel amply repaid for our effort to introduce the new work.

A class has been formed in Physical Geography in each grammar school which is interesting and a small class began the study of book-keeping in the Boyd school a few weeks ago and one pupil in the Smithtown school will begin it in the spring.

All have attended to reading, spelling and writing. We are pleased to note the advancement made in penmanship. Some of our children learning to write before they can read readily.

We think more real good can be obtained by giving a lecture twice or three times a week to the school as a whole, in physiology than by learning lessons from books which are often dry and uninteresting. Mr. Oakman and Miss Hutchins have accomplished much this way, having notes from the normal school which are superior to any books we have ever had, these with the aid of the charts which we purchased for this study have made three days in the week very interesting and useful to the pupils and given satisfaction to teachers and committee.

We think the year has been profitably spent, what we have lost in some schools has been made up in others. Our teach-

ers have been thoroughly conscientious and faithful in the performance of their work and have had in nearly every school the hearty sympathy and co-operation of parents and approval of the committee.

So much depends upon the parents, a teacher can accomplish comparatively nothing without their help and we ought all to unite with the teacher in trying to make our schools as happy as our homes, then will the future be as bright for them as the dawn of a cloudless day, and our children grow up to maturity a blessing to our town and community.

SANBORN GRAMMAR.

This school was in the care of Mr. Damon who taught the previous term, being acquainted with the pupils, the work went right along, good order prevailed and all seemed to be doing well. He came back in September, taught a few weeks and then left us for a better position.

Mr. E. F. Blood, a graduate of Dartmouth College, came, finished the term and has taught the winter term. He is a thorough disciplinarian, has given good satisfaction, and we find him to be an earnest worker. We hear nothing from the parents but approval and we sincerely wish a bright future for this school as it can be if all do their best. We think the parents are interested in this department as well as in the primary and it helps the teacher to have your presence to cheer him in his labor.

SANBORN PRIMARY.

We were fortunate to secure for the entire year Miss Eva M. Dalton of North Hampton, a lady of experience and ability for this school. She never fails to do her best and the little ones

made good progress as they cannot fail to do when good order and obedience are the rule. We are pleased to find so many visitors enrolled in her register and feel sure that the parents and friends are interested in the work, and we sincerely hope they will continue to visit in the future and thus cheer both teacher and pupils in their work. We are always greeted with smiling faces here.

FARM SCHOOL.

This school has been unfortunate the past year in having so many teachers for we believe that acquaintance between pupils and teacher is necessary for the best good of all concerned.

The district wanted a man, we secured Mr. Wm. Jackman of Lynn, a graduate of Bridgewater Normal school. He tried hard but was disappointed at seeing so little recompense for his labor. The attendance according to the registers was only half that of the year before and as Mr Jackman did not care for the position the fall term, we engaged Miss Amy Doe in September who taught four weeks, then left. We were fortunate in our second choice, Miss Agnes Marchant, a Bridgewater graduate, finished the term for us. She is a fine teacher, working with an energy and will that will accomplish much. The attendance was very much better than during the summer term and she was liked by the pupils ; improvement was made while she was with us, but we could not persuade her to stay through the winter. At the beginning of the winter term in December, Miss Etta M. Eaton of Wells, Maine, a Normal graduate, came and tried her best with the pupils. It is very discouraging for a teacher to work where the attendance is

irregular and there are so many dismissals. The pupils lose a great deal and the teacher will not get the credit she deserves and has earned for her faithful work. We found Miss Eaton to be a very conscientious, diligent teacher and wish she could have had more support from the parents. We are glad to have four names on the Roll of Honor, we wish more would try the coming year and be punctual in their attendance and we will promise a better school for the effort made. If each one will help a little you will be astonished to see how quickly the burden will be lightened and teacher, children and parents will be made happier.

SMITHTOWN SCHOOL.

There has been a great change in this school during the past two years and we can now rank it one of the best. Miss Parmenter has continued her labor here through the year and has proven herself a faithful and efficient teacher, one capable of governing, as well as gaining the respect and love of her pupils, we speak for her a bright future as a teacher. The examination proved that the year had been well occupied and that both teacher and pupils had done what they could to make it a success. The history class have done excellent work with the new book.

We are pleased with the Roll of Honor and with the general appearance of the school, hoping the future will find still greater improvement.

BOYD SCHOOL.

The spring term was taught by Miss A. G. Hutchins of Chelmsford, as the two preceding ones had been. Miss Hutchins is a superior teacher of experience and had complete control of the pupils, all were willing to please her and all improved consequently. She has the rare ability of keeping every one busy. While the more advanced classes were reciting, the little children had their particular work, and to the visitor it was a work-room, every one doing his or her work at the right time and in the right way. The final examination was a written one, twenty-six being examined this way, they all did remarkably well, some of the papers would put to shame children of a larger growth.

The ranks are all written in the register and we may well be proud of them.

Miss Hutchins began the fall term, taught a little more than two weeks and was obliged to leave on account of illness. We felt that it would be impossible to fill her place, having endeared herself to children and parents alike.

Miss Annie S. Ridlow, from the Maine normal school, finished the term, a lady of several years experience, a good disciplinarian and faithful in her work, we could not persuade her to close the year, we were sorry, for changes are not desirable.

Miss Bertha L. Milliken from the same normal school is having charge of the pupils during the winter term. She has succeeded in winning the love of those in her care, maintaining good order and is trying to work for the good of all. We have no fault to find with her work.

The children are ambitious and it is a pleasure to teach them.

Wages of teacher per month, \$32.00.

SOUTH GRAMMAR.

The spring term of this school was taught^d by Mr. Robert J. Fuller, of Boston. His order was good, but he failed to keep up with the drill the children had been having the previous year. He left for a much better position, and in September, Mr. Frank E. Oakman, a graduate of Bridgewater Normal School, came and finished the year. He is a wide awake, ambitious teacher, a thorough gentleman, having all the qualities which make a fine teacher, therefore, we may expect him to be successful. The pupils have been taught the "why and wherefore" of things, and have improved in all their studies. They are cheerful about their work, and try to make the school a good one. They have had a good year and credit is due Mr. Oakman for his untiring efforts in their behalf. He has succeeded in stopping the mania for being dismissed and we wish others might do the same.

SOUTH PRIMARY.

This school has done excellent work with Miss Bowdoin for teacher the second year. The attendance has been good through this cold winter, and they seem to be really in earnest to do well. Miss Bowdoin is very faithful, and the explanations given by the pupils in their arithmetic is worthy of commendation. A great improvement has been made in writing; the little ones, who could not write, have learned rapidly. The year closes well for this school, we can find no word of fault, only praise to the teacher for her untiring labor, and to the pupils for trying to help her make the school what it is. We

find it in a better condition than it has been at any time during three years.

There are three hundred and twenty children of school age in town; of this number two hundred and forty-seven have attended school; several have moved away, and others have gone to work in Amesbury and Newburyport.

Respectfully submitted,

DR. D. W. COLCORD, } School Board
ALMENA R. MAHAR, } of Seabrook.

MINORITY REPORT OF SEABROOK SCHOOL BOARD.

In connection with the statistical report of the schools, the law calls for "such suggestions relative to the conditions of the schools as the school board may think useful."

The report and suggestions, signed by two members of the board, have been submitted to me for my signature.

I disagree with a number of the statements made. As the law directs, I have "examined each school near the beginning and near the close of each term;" have kept a record of the work of each class, and know whereof I affirm.

The school in District No. 3, improperly designated "Farm School," is reported as "unfortunate the past year, in having so many teachers," and "very discouraging for a teacher" from "irregular attendance" and "so many dismissals," "and wish she could have had more support from the parents." The "misfortune and discouragements," have resulted from the failure of the teachers to meet the just requirements of the parents, whose "heartly sympathy," "support and cooperation" have never been lacking, when they have felt it was merited.

The implied failure of Mr. Fuller's work in the South Grammar School, is unjust. He was thorough in his work; his methods were excellent, and the results, as shown in his examination (at which I was the only member of the board present), highly gratifying. It was the unanimous desire of the parents that Mr. Fuller should be retained. The school was offered him the second term; the other members (of the board) refused his request for increased wages, greatly to the regret of the people. My examination of Mr. Oakman's school showed good work, and while giving him due credit, I cannot indorse the evident intent to underate the work done by Mr. Fuller,

I was unaware of any proposed change of Text books, it was done without consulting me. In my visits to the schools I found the scholars studious and the examination showed much to commend.

WILLIAM A. RAND, of the School Board.
